

## ALDA Talks on Green Reconstruction of Ukraine #3 Green Innovations Developed during the War

**Date: 25.03.2024 15:00 CET, 16:00 Kyiv time**

**Where:** [online](#)

### Aims:

- To present ALDA's work in Ukraine, including the U-LEAD with Europe project, and its role in promoting green reconstruction efforts to ALDA members and the broader public (open event)
- To discuss green transition and eco-approach for Ukrainian communities in times of war
- To present good practices of green projects developed during the war in hromadas
- To present funding opportunities under LIFE program for Ukrainian communities

### Expected results:

- Increased awareness and understanding among ALDA members and the broader public regarding ALDA's work in Ukraine, particularly focusing on the U-LEAD with Europe project and its efforts towards green reconstruction.
- Enhanced discourse and knowledge exchange regarding the concept of green transition and eco-approach in the context of Ukrainian communities during times of war.
- Sharing of successful case studies and best practices of green projects implemented within hromadas (local communities) amidst the challenges of war, fostering inspiration and potential replication of similar initiatives elsewhere.
- Greater awareness and understanding of funding opportunities available through the LIFE program for Ukrainian communities, potentially leading to increased applications and successful projects aimed at promoting sustainability and resilience amidst the ongoing war.

### Speakers:

1. Anna Ackermann, Policy Analyst Green Reconstruction of Ukraine at the International Institute for Sustainable Development, Board Member at EcoAction
2. Viktor Bukovynskyi, LIFE Programme National Contact Point in Ukraine TBC
3. Kateryna Kobets, Head of International Relations Department and Investment Activity, Meref community of Ukraine
