The Union of Rural Communes of the Republic of Poland is the biggest union of freely associated communes in Poland, with over 500 member municipalities located in rural and urban-rural areas

What we do:

- propose amendments to laws disadvantageous to rural communes,
- represent interests of rural municipalities on EU level in the Committee of the Regions
- claim funds owed to rural communes,
- lobby in favour of rural communes,
- develop modern computer infrastructure in communes,
- provide Internet services for communes,
- run a system for services monitoring in rural communes,
- support our member municipalities in their twinning activities
- create data bases in communes to support the management of education, health care, social welfare and cultural activity,
- provide training for local government employees,
- provide legal consulting,
- ensure quick access to information through the Union structures,
- provide nation-wide platform for action planning and exchange of experience.
