

# BREAKDOWN OR BREAKOUT

The Break Out or Break Down project financed by the European Commission

**BREAKIN' NEWS**

NR 2 October 2015

## WE'RE ON THE MOVE

Our project is missioned to find new ways for long-term unemployed. Not by offering new short-term courses or sharing difficult life situations in the classroom, but by building capacity among trainers and unemployed to take action in their communities and create new perspectives for themselves.

The project is continually producing new material from our practice and you can study the material in the [project web](#) - and in particular [here](#).

The website is under construction, but you are invited to explore and exploit it any way possible...

## YOU CAN WORK WITH US

The *Break Down or Break Out* project is creating considerable capacity to assist and support life change and taking community action for long-term unemployed, including trainers and coaches working with unemployed, and we do not only wish to share our practice and experience with you, we would also like to work with you, learn from you and offer any kind of guidance useful to you.

You can read about how to work with us [here](#).

## POWERFUL CAPACITY BUILDING IN CRAIOVA

We are in the process of planning a powerful week in Craiova Romania in December, during which trainers and dedicated unemployed from partner communities and countries will meet up, team up and build capacity to take activities for unemployed out of the classrooms and courses and into creating real change - for themselves and for their community. In *Breakin' News 3* we will invite you to know more about these activities, but in case you are curious, do not hesitate to contact Keith or the local partner for more information!

## SHARE OUR ROMA EXPERIENCE

In May almost 50 project managers, trainers and dedicated unemployed met in Roma to share experience, but also to work with and learn from the many innovative and entrepreneurial resources in and around Roma who made their way from unemployment and difficult social situations into creating valuable activities for themselves - working with the community and overcoming the many obstacles on the way. In the 20 minute [video documentary](#) you can explore more of the Roma experience and also gain a clearer impression of the project mission.
