Event 14 EU LEARN – PORTUGAL

Participation: The event involved 20 citizens, including 20 participants from the city of Lisbon, Portugal

Location / Dates: The event took place in Lisbon, Portugal, from 16/07/2018 to 27/07/2018

Short description: Regarding the required contents to be transmitted and the expected results we have chosen to create an activity within school context for very young citizens (8 to 12 years old), who were born completely embedded in the European reality, without ever having known another one. We have decided to implement this activity in three different moments, to allow progressive assimilation of such a dense topic: one that "explains" the subject (exposure to documentaries and another pedagogical material, Q&A), one of "playing" with the concepts learnt (Quiz) and the final one in which the participants were invited to "reflect and share" personal experiences (following at home intergenerational interviews). We have counted with the kind cooperation of the Portuguese Representation of the European Commission.

Event 15 EU REFLECT – PORTUGAL

Participation: The event involved 12 citizens, including 12 participants from the city of Lisbon, Portugal

Location / Dates: The event took place in Lisbon, Portugal, from 11/01/2019 to 13/02/2019

Short description: As the previous local activity, EU Reflect Activity [DebatEuropa] was split in several moments to achieve better outcomes. We chose LYN a newly formed, small but ethnically heterogeneous group of teenagers living in a Beato's deprived neighbourhood to be the main target audience of "All sub activities were held in Espaço Jovem [part of the project C3, financed by Lisbon municipality], a place which LYN began to manage recently with the support of Clube Intercultural Europeu (CIE), a CSO intervening in this district and present in all these moments. The starting point was the screening of a movie chosen by the teenagers from a European shorts' series ["EU and Me"]. It occurred last 11th January. "Party Animal", the chosen movie, relies on how EU can help young people to make their dreams come true, using programmes like The Youth Guarantee.

In this case, the protagonist, a young Greek citizen realizes that can open a Senior Academy of Dance with EU support. After the screening, the group commented on the main aspects of the film, being challenged to suggest an activity for the community. The brainstorming started here. In this session LYN members decided that they wanted to offer and coordinate an initiative for the neighbourhood's elder people who are daily invisible and forgotten in their flats. Before some daily life's issues related to European citizenship were discussed: mobility, costs of life, free movement, migration, European aids for employment, active citizenship and intercultural societies. Between the first meeting and the debate, Rede DLBC Lisboa/CLLD Lisbon Network joined some elements of LYN to prepare the event for the community. They participated on the event's naming and the

poster's design, bearing on mind the focus of the debate. They also spread the word and placed posters in the neighbourhood. Actually it was difficult to engage the general public to this activity, even if some locals expressed interest. The debate itself –which they called “O nosso Bairro em Ação: A Europa Aqui” [Our Neighborhood in Action: Europe Here] –was held in 13th February, with the presence of other kids and teenagers, representatives of Beato Parish and CIE, as well a local Community Intervention's technician living in the neighborhood and representative of Roma people, a key community within this local community. After presenting the movie, LYN explained why they chose “Party Animal” and which activity they would like to offer to the elder people, the first target audience they chose to work with. The group abandoned the initial idea of taking the elder people to a sports complex where they have been last year. They thought it would be better to start the engagement in the neighborhood and their own place (Espaço Jovem).

In an intimate conversation-debate, the active aging, sports and arts as tools to approach the locals, livability issues, community engagement, gaining a respectful voice within the community, the relationship between the institutions and the civil society were discussed. The representative of Beato Parish's presence to register the ideas of activities for the neighborhood and to talk to LYN was an opportunity to fight a European malaise, the gap between citizens and politicians. At the same time, it was stimulated a bottom-up approach: the group only should prepare the activities they listed (cinema sessions, dance, ping pong, etc.), if they answer to their own interests/needs and the community's interests/needs. During the conversation, Beato Parish and CIE gave some recommendations and guaranteed logistics support.

Event 16 EU ACT – PORTUGAL

Participation: The event involved 22 citizens, including 22 participants from the city of Lisbon, Portugal

Location / Dates: The event took place in Lisbon, Portugal, on the 31/05/2019

Short description: The future of Europe could not be detached from the future of the globe. Anyway, a macro view of a sustainable and viable future does not exempt a micro view: local communities, civic society organizations and individuals also have something to say and to do about their permanency in Europe and on Earth. Once “EU Act” activity should focus on the future of EU, including a debate on the challenges, opportunities and individual responsibilities in driving positive change, CCLD Lisbon Network considered to organize a discussion on Environment, a cross-sectional, hot issue about our present and future, too disquieting to ignore as a citizen or as part of a community. Requiring regularity, continuity and solidness in the approach, CLLD Lisbon Network thought would make sense to join a strategic partner, Zero Waste Lab (Portugal), already working on the ground with a specific community this theme through a cycle of local forums. So, our last local activity of WISE was a community forum in a specific neighbourhood of Lisbon. It was implemented within the framework of WISE project and under “Zero Waste Mouraria”, a local project which is part of an integrated co-governance program focused on citizens empowerment in Lisbon's priority neighborhoods [BIP/ZIP] – in this case Mouraria neighbourhood, which CCLD Lisbon Network's Local Development Strategy aims to respond.

This session co-organized by Zero Waste Lab and CCLD Lisbon Network was different from the three previous ones, once we introduced – in addition to the individual and community scale of the problem, usually at the heart of the discussion – the European approach for reflection. Usually in these informal sessions [that still not ended], citizens and CSOs representatives discuss how to contribute to a “zero waste” neighbourhood. Meanwhile, Zero Waste Lab takes the opportunity to “pilot positive impact solutions” for a better future. Before the debate, in order to provide a context, Fernanda Fernandes, representative of Espaço Europa, a partner of WISE project from the early beginning, presented environmental measures taken or to be taken by European Commission that are having or will have an impact on the daily lives of European citizens (the agenda for a safe, clean and connected mobility; Natura 2000's role for the protection of rare and threatened species; and the European Strategy for Plastics in a Circular Economy). One of the short films included in the campaign “#EUandMe” [“Oona”] was screened as well to introduce Natura 2020 network and the direct impact of human action on the biodiversity in Europe.

This forum was attended by 22 participants, who spread over 3 tables. The world coffee dynamic was adopted, which enabled all the groups to rotate and respond to all the six questions over the table. This way each participant had the opportunity to express him/herself and position him/herself, on an individual, community and European scale. After discussing solutions for the current problems and writing their

commitments for the future, the three groups presented their inputs to the other groups. Along with the inputs brought forward in the other forums and the messages set by other citizens inside a physical mailbox during the lifespan of this BIP/ZIP project [Zero Waste Mouraria], these contributions will be included in the so-called “Zero Waste Manifesto”, to be presented in September to a more enlarged community and to the local political representatives, as a positive lobbying. As creative outputs, the participants also wrote messages to the world and to the neighbour [hashtags such as #TaraEU, EUWasteAwareness, #ThinkTwice, #AHouseAFarm, #MoreBulkProducts, #SharedResponsibilities] to disseminate in social media.

Event 17 EU LEARN – BULGARIA

Participation: The event involved 25 citizens, including 25 participants from the city of Troyan, Bulgaria

Location / Dates: The event took place in Troyan, Bulgaria, on 22/11/2018

Short description: The interactive game was created for students and members of NGOs aiming at improving the knowledge of the young people about the history of the EU. The idea of the game is using the “escape room” elements to motivate the participants to find out historical facts and memorize important for the EU history dates. A five-member team has to find the answers of the questions for the past of the European Union. The clues for the 11 questions were spread and hidden in the room among objects, maps, posters related to the EU member countries or other cities. Every correct answer leads to the next question so that at the end the final correct answer was the successful exit of the game. After the game the participants have shared their insights and learning and a discussion with the public was launched.

Event 18 EU REFLECT – BULGARIA

Participation: The event involved 40 citizens, including 40 participants from the city of Troyan, Bulgaria

Location / Dates: The event took place in Troyan, Bulgaria, on 13/12/2018

Short description: An interactive debate on the topic of the European Union’s present was held in the municipality of Teteven, attended by more than 40 young people aged 16-19. Before the debate an educational panel was carried out in order to prepare the participants and raise their knowledge on the goals and values of the European Union, the functions and role of the EU institutions. The young people from Teteven also went through the “European Labyrinth: the History of the EU”. Two 5-member teams opposed each other to compete how informed they are on the EU topics and compare their knowledge on the functions of the institutions. The gamified process as well as the competitive element of the event encouraged the participants to have fun and feel comfortable to learn and ask questions about the EU. The meeting was also attended by teachers and representatives of the local authority.

Event 19 EU ACT – BULGARIA

Participation: The event involved 25 citizens, including 25 participants from the city of Troyan, Bulgaria

Location / Dates: The event took place in Troyan, Bulgaria, on 13/12/2018

Short description: The workshop aimed at discussing the future of the EU - identifying further steps and formulating recommendations for a brighter future. 25 people, representatives of local authorities and NGOs from the North Central Bulgaria were gathered in Bojenci to discuss the future of the EU. The meeting started with presenting the project WISE, its goals and main activities. A short presentation and demonstration of what has been done till now (the European Labyrinth: the History of the EU in Troyan and the Interactive Debate: Europe Today in Teteven) under the project has been conducted. Then the participants have worked in 5 groups having the following tasks: Identifying the 5 challenges toward the brighter future of the EU; Transformation of these challenges into goals; Prioritizing and selection of one goal to work on; Identifying of the main institution that can support the implementation of the goal; Discussion and listing the activities/recommendations for this institution in order to solve the problem and achieve the goal; Self-reflection: What can I personally do to support the implementation of this goal?. In order to achieve greater interaction elements of the method “World Café” was used. The participants were active and have taken active part in the discussion.

Event 20 EU LEARN – CROATIA

Participation: The event involved 24 citizens, including 24 participants from the city of Vodnjan, Hrvatska

Location / Dates: The event took place in Vodnjan, Hrvatska, on 17/12/2018

Short description: Informo Association held its first local activity within the WISE project on 17.12.2018. This activity refers to a lecture on the European Union at elementary school in Vodnjan, to pupils attending the eight classes and their teachers. The activity was held by the employees of the Association Informo Laura Širol, Ema Han and Sabina Valić, and the volunteer of the European Volunteer Service Goknur Gudu.

Pupils and teachers are presented with the European Union's history (organizations, goals, treaties, principles, ...) through interactive presentations and videos. In this way, we have encouraged an informal learning method, as children in the school do not learn enough about the history of the European Union, and one of our goals through this activity was to bring the pupils closer to the history that has been created over the last 70 years. After the lecture was held and after the pupils saw the interactive video, a quiz on the European Union was organized. We were very surprised that the students listened attentively and that all responded rightly to the questions we asked them in the quiz. Even younger generations are interested in the history and beginnings of the European Union.

Event 21 EU REFLECT – CROATIA

Participation: The event involved 28 citizens, including 28 participants from the city of Pula, Hrvatska

Location / Dates: The event took place in Pula, Hrvatska, on 06/03/2019

Short description: Informo Association held its second local activity within the WISE project on 6.03.2019. We organized a debate in High school in Pula with students. The activity was held by the employees of the Association Informo Laura Širol and Sabina Valić, and the volunteers of the European Volunteer Service Goknur Gudu (Turkey) and Marta Menendez (Spain). During the course of our activity, we were primarily presenting the presentation on the current situation in the European Union, the forthcoming Europarliamentary elections and we devoted time to topics that are close to our local community. So we focused on presenting volunteering activities, as our association operates in Vodnjan and we welcome volunteers from European countries to help us work on projects, instantly learn about local customs and integrate into the local community. For this reason, our volunteers, Marta Menendez (Spain) and Goknur Gudu (Turkey) presented to the students in the debate, what is really volunteering and to show the attendees what volunteering was and how they decided to come to volunteer in Croatia, in a way to contribute to our local community. After they presented, we had a debate on current issues in the European Union, about volunteering and the programs the European Union offers to potential users. The students were very interactive and participated in the discussion, asked questions about us and volunteers and learned everything they wanted. They liked very much the fact that the volunteers were present, and with whom they spent more time in conversation and debate.

Event 22 EU ACT – CROATIA

Participation: The event involved 28 citizens, including 28 participants from the city of Pula, Hrvatska

Location / Dates: The event took place in Pula, Hrvatska, on 25/03/2018

Short description: Informo Association held its third local activity within the WISE project on 25.03.2019. We organized a debate in Economic high school in Pula with students. The activity was held by the employees of the Association Informo Kristina Hlavati Bertoncely and Sabina Valić, and the volunteers of the European Volunteer Service Silvia Bisconti and Thaila Vesnaver (Italy). Our activity started with short lines about the WISE project and its objectives. Then we presented the current situation in the European Union and ask them what are their opinions about the current situation and how do they use the benefits of being in the European Union. To engage them better and to devote topics more relevant for the local community, we put an accent on volunteering activities, especially those ones offered through the EU programmes. As we are organization accredited to coordinate, send and receive volunteers, our volunteers Silvia Bisconti and Thaila Vesnaver (Italy), that came in our Association for one year and engage their time to make positive changes in local society, presented their experience, what were their doubts and fears before they decide to enroll in volunteering, how they manage their tasks, what exactly they do here and what are results of their devoted time here. Students were very engaged and interested in their testimonials and asked a lot of questions. After their part of the presentation, we had a debate on how they can act right now in this age to make a positive change in their local communities as on European level by engaging themselves in transnational activities, structured dialogue, volunteering. We detected problems in the local community and offered several possible solutions for them. To improve a debate, besides our volunteers from Italy that presented their experience, two other volunteers from Turkey and Spain were active in a debate with the situation in their countries on a particular field and compare them with Croatian ones. Students were very active in a debate, especially in interaction with our volunteers.

Event 23 EU LEARN – SLOVENIA

Participation: The event involved 23 citizens, including 23 participants from the city of Novo Mesto, Slovenia

Location / Dates: The event took place in Novo Mesto, Slovenia, on 18/07/2018

Short description: The aim of the event was for the local youngsters to get know about the creation, history, developing, treaties, institutions and pillars of EU and how was it integrated. Furthermore, the aim was for youngsters to understand the role of the EU and their important role in the EU making. We also wanted for them to know about the agencies and institutions connected with the EU in their local, national and international environment. Moreover, we wanted to engage them in debate and to hear their opinion and feelings about the EU. Finally, we focused on raising awareness of youngsters about the EU's history and scopes, to research the (their) EU identity and to increase the sense of engagement in the EU's project.

Event 24 EU REFLECT – SLOVENIA

Participation: The event involved 24 citizens, including 24 participants from the city of Novo Mesto, Slovenia

Location / Dates: The event took place in Novo Mesto, Slovenia, on 20/09/2018

Short description: The activity was held at Novo mesto Grammar School on the permission of the Association for developing voluntary work (DRPD). The purpose of the event was to present the topic of the situation in the EU and current challenges that EU is dealing with but also what kind of role civil society is playing. Firstly, Mr. Aljaž Drenovec active volunteer of the Association for developing voluntary work (DRPDNM) made a PowerPoint presentation about the current challenges of the EU and how youth is involved in it. Then followed a presentation of Ms. Snježana Blagojević, the employee of Association for developing voluntary work Novo mesto (DRPDNM) made a PowerPoint presentation about the project "WISE – While Innovating and Strengthening Europe" which started in France on 1.12.2017 and will last till 31. 5. 2019. The main topic was democratic cooperation and active citizenship in shaping policies, with the aim of making citizens aware of the importance of affiliation to the European Union. With a series of activities involving citizens across the EU and beyond, people will be better able to understand how they can help change the Europe. Ms. Snježana encouraged young listeners to participate in debate how they can involve in creating change in Slovenia and Europe. The group of young students was very interested in a debate, they also stressed some of their issues (unemployment, immigrants, and other social problems, local and global environmental problems). At the end there was exchange of information on how they can be involved in activities related to addressing problematics. They found out that participating at the non-governmental society as volunteer can make big changes in local society and broadly.

Short description: The activity was held at Novo mesto Grammar School on the permission of the Association for developing voluntary work (DRPD). The purpose of the event was to present to students of 18 years old age the meaning of being an active citizen and the future of Europe. Firstly, Mrs. Tjaša Kozjan project coordinator of the Association for developing voluntary work (DRPDNM) made a PowerPoint presentation about being an active European citizen, the chances that EU is offering us and how youth can be involved in it. Then followed a game 'walk of privilege' led by Ms. Snježana Blagojević, the employee of Association for developing voluntary work Novo mesto (DRPDNM) The game led to discussion on the role of young people in EU and their involvement through projects, youth exchanges, European Solidarity Corps etc. Both, Tjaša and Snježana shared their own experiences that EU gave them, from EVS, to Erasmus study abroad to four freedoms that can be used by the role of being young student in any member state of the EU you wish. Following that, we talked about why our voice on EU elections is important. And we separated into four groups, active EU citizen, democratization, citizens obligations and the right to tell your own opinion.

Short description: Topic of the debate was: „EU projects have positive impact on the personal youth development”. On the debate were participating 29 students, professors from the local high schools, students from the Economy faculty and local NGOs. First, we started with short energizer – European awareness (what do they know about Europe). After that was explained the system for debating. Participants were divided in two groups that took part in the debating, for and against the topic: „EU projects have positive impact on the personal youth development”. Participants were debating on following questions: 1. What are the challenges and opportunities and how huge is the awareness for the opportunities that EU gives us? 2. How big is the individual responsibility in driving positive change? Who can make the change and where and how we should start with it? On the end, participants wrote recommendations for actions at local, national and European level. During the debate students from the Medical high school in Prilep, recorded a video of it. Debaters gave good explanations for and against the EU projects and their impact on the personal youth development, they were very well prepared for the debate and had good arguments for and against. But on the end, judges made their decision, so the team that was FOR the EU project won.

Event 32 EU LEARN – BELGIUM

Participation: The event involved 35 citizens, including 35 participants from the city of Brussels, Belgium

Location / Dates: The event took place in Brussels, Belgium, on the 31/01/2019

Short description: Whilst decisions on the withdrawal of the UK from the EU are still in the balance, the brainstorming under the title “staring at the Brexit snake” has been an opportunity to raise the issue of the hidden impact on freedom of movement across Europe, identity and citizenship. The EU has stated that citizenship is outside their mandate to negotiate the withdrawal of the UK from the EU under Article 50 of Treaty on the European Union. It has thus been left to the citizens of the EU to correct this deliberate oversight and the only way to do so is to promote the European Citizens’ Initiative on permanent European Union citizenship. We also appeal to European citizens in other EU countries, as Brexit suggests not to take for granted a transnational citizenship which seemingly can be revoked without their consent. The message is: once conferred, European citizenship should not be taken away.

Location / Dates: The event took place in Maastricht, the Netherlands, on 27/05/2019.

Short description: The aim of the event was to have group works on current internal and global challenges faced by the EU societies and on opportunities and individual responsibility in driving positive change. Following our collaboration with a health care&service center based in Maastricht, Stichting Mosae Zorggroep, 27 participants were assigned into 5 groups with one discussion leader in each group, whose sole task is to report the discussed subjects. Each group first individually answered a formulaire with several questions regarding their opinions about the EU and the problems they seem to be facing at the moment. Of course, this was not be assessed in anyway and was designed to be rather entertaining. Accordingly, they were asked to react to quotes, satirical cartoons, pictures, etc. After having done so, the participants in each group were asked to pool their findings and reflect on them as a group. The discussion leader had the chance to summarise it all on their white board in the shape of bullet points.

Each group got back together for a second session in order to work on solutions for

everything that had been discussed so far. Two Dutch moderators were present to this end. A small break in between to drink, eat and discuss was provided. Each groups' summaries were presented to the rest of the participants. They were provided with material to create "proposition boards" with the solutions they came up with and those participants who gave their consent were photographed. The pictures were then shared on the screen with the other participants. Finally the participants were awarded vouchers and gift cards.

Short description: The closing event took place in Lisbon, Portugal, in March 2019 and aimed to finalize and evaluate the project and to close the discussions about hot issues. The location was wisely chosen: the Lisbon Treaty is the latest one signed by the EU Members, so we ideally “closed” the path of the EU done so far. It symbolizes also the point from where we want to start for rebooting the EU project, with new energy, more consciousness and stronger motivation, now very stuck but essential for peace and prosperity of the old Continent. Partners have presented outcomes of local phases and discussed possible future cooperation. International events have enabled partners with exchanging ideas, best practices, sharing difficulties and comparing situations from their respective backgrounds and building new cooperation and collaborations. By engaging various nationalities, they helped to point out on cultural and linguistic richness of Europe, fostered intercultural dialogue and built more tolerant and multifaceted environment for us all.
