'Europe for Citizens' Programme

## International Network of Towns Active Citizenship and Twinning (INTACT)

Project co-financed by the European Union within the programme "Europe for Citizens"

## Bringing towns together

Town-twinning today goes way beyond the traditional exchange of students or choirs. Twinning can also lead to an exchange of technical know-how and be a real asset for local economic development just as for the promotion of active citizenship.

For this reason, INTACT project will establish a sustainable interregional network of towns, creating strong links between 20 partners from seven European countries.

Via this network, the project partners – local authorities and NGOs – will exchange good practices and know-how to promote town-twinning and active European citizenship. Activities will be organised on local and international level, involving a large number of civil servants and other citizens.

## INTACT's main objectives

- ✓ **Establish an interregional network of towns:** creation of sustainable links between partners; exchange of good practices and know-how to encourage innovative ways of decentralised cooperation;
- ✓ **Foster town twinning:** exchange of technical know-how and twinning experiences; intensification of contacts between towns;
- ✓ **Foster active European citizenship:** exchange of experiences; organisation of local and international activities to raise awareness;
- ✓ **Foster European integration:** bringing together old and new EU member states as well as candidate countries in a common partnership, in the spirit of European values.

## Activities

- ✓ **Study visit in Croatia (2010)** on decentralised cooperation and active citizenship;
- ✓ **Local events, in each partner municipality** promoting twinning and active citizenship;
- ✓ **International summer school in Strasbourg (2011)** for young people from the partner countries on European identity and active citizenship;
- ✓ **Policy making meeting in Brussels**, for future twinning agreements.
