

Job opportunities

Job opportunities for alumni could be found in all sectors where actions for territorial transitions should be implemented, in particular in territorial organizations responsible for the creation of sustainable territories (territorial communities, enterprises, non-state actors and civil society organizations, local governments), the central government and international organizations.

The Erasmus Mundus Joint Master **CCD-STeDe** aims to create experts in the area of sustainable territorial development in the context of climate change. More concretely it trains professionals to be able to help organizations acting in the territory (enterprises, local communities, civil society organizations, public administrations) to draft sustainable development policies combining economic, social, environmental, international and intercultural dimensions.

Each academic year, 20 Erasmus Mundus scholarships are granted to the best-ranked applicants, and distributed among the 4 paths.

Erasmus Mundus Joint Master

Climate Change and Diversity: Sustainable Territorial Development CCD-STeDe

Padova (Italy) - Madeira (Portugal)
Quito (Ecuador) - Johannesburg (South Africa)
Ouagadougou (Burkina Faso)
